User Interface (UI) /
User Experience (UX) Designer*

Full-time, permanent employment

DCSO Deutsche Cyber-Sicherheitsorganisation (German Organization for Cyber Security) is a managed security service provider with an innovative competence center and a platform and forum for European enterprises. We protect organizations against cyber crime, industrial espionage, government attacks, and sabotage. DCSO unites leading German and European enterprises under one roof, together with DCSO experts, research institutes and public authorities. Together we share information regarding cyber security threats and develop effective and efficient defenses.

At the earliest date possible we are looking for a motivated UI/UX Designer* to strengthen our team.

Responsibilities

- Close collaboration with our development team to innovate our Customer Portal single-page application and prepare UI components for new features or refactor existing ones following UX best-practices
- Participation in team planning events to find the best solutions for our customers
- Creation of UI/UX guidelines and preparation for implementation
- Collaboration with the product owners and product manager to prototype new ideas and prepare them for upcoming sprints
- Partnering with CI stakeholders to ensure everything is aligned with our global marketing strategy
- Developing and maintaining customer personas

Key Skills

- Degree in design or engineering related field, or equivalent practical experience
- Designer with experience in designing single-page, data heavy applications to help customers to make the most out of the data
- Prior experience with agile methodologies is appreciated as we follow agile development approaches
- Experience with Sketch or InVision or similar tools and solutions is desired
- Creativity and a "getting things done" attitude
- Interest in security and open source software is a plus
- Ability to apprehend new concepts and learn new technologies
- Comfortable working collaboratively in interdisciplinary teams
- Experience with user testing models (e.g. A/B) and frameworks is a plus
- Proficiency in English is mandatory (B2), Proficiency in German is a plus

Offer

- A full-time, permanent employment contract in a rapidly growing company
- An exciting and unique service portfolio in a highly dynamic market
- Challenging tasks in our comfortable and modern office in Berlin
- The opportunity to play an active role in shaping processes and systems
- The promise of challenging activities in a highly qualified and dedicated team

We look forward to receiving your detailed application in PDF format, including the earliest possible starting date and your salary expectations. Please forward to: bewerbung@dcso.de.
